

# MULTIMEDIA LEARNING IN MFL WITH IPADS AND LAPTOPS

**AT UPTON-BY-CHESTER  
HIGH SCHOOL**

**11<sup>th</sup> February 2015**

**Presenter - Joe Dale**

## **Promoting listening and speaking skills with ICT**

Easy solutions for promoting MFL speaking skills, improving pronunciation and deepening understanding in your languages classroom using tools such as Vocaroo, Voice Record Pro, iPadio, Yakit Kids, Voki and Audacity. Allowing you and your students to make recordings on mobile phones, iPads or microphones and publish the results online. We will also look at making audio QR codes and turning your browser into a professional looking teleprompter.

## **Improving reading and writing in MFL using technology**

Look at opportunities for students to practice their language reading and writing skills by contributing to an online notice board, creating a cool animated cartoon, a decorative word cloud and multimedia ebook with Padlet, Wordle, Word Clouds, Storybird and Book Creator.

Joe Dale is a widely recognised independent consultant who has experience with Network for Languages, ALL, The British Council, The BBC, Skype and Microsoft. He is host of the TES MFL forum, Vital MFL Portal Manager for the Open University. He was a former SSAT Languages Lead Practitioner, a regular conference speaker in the UK and recognised expert on technology and language learning.

**Computers and iPads will be available on the day**
