Upton-by-Chester High School Community Update

October 2026

Welcome to the project and community update

Kier has been engaged by the Department for Education (DfE) to deliver the Upton-by-Chester High School project. The project forms part of the Government's School Rebuilding Programme (SRP), with the school prioritised for the Programme based on the condition need of the existing buildings.

Kier have worked with the DfE, and their Technical Advisory team alongside Upton-By-Chester High School to develop and agree the design of the new facilities.

Kier will continue to provide further newsletter updates during the construction phase.
