

Task 1: 16 mark plans for all components to A grade standard		
Approaches (Paper 2) :Component	Completed	Verified by SDO/GCR
Outline and evaluate social learning theory approach, refer to the behaviourist approach as part of your evaluation.		
Describe the cognitive approach in psychology, Evaluate the research methods used by cognitive psychologists.		
Discuss the contribution of the biological approach to our understanding of human behaviour		
Discuss the psychodynamic approach, refer to at least two other approaches in psychology in your answer.		
Outline assumptions of humanistic psychology, Discuss how humanistic psychology is different from other approaches within psychology.		
Outline and compare any two approaches in psychology.		
Attachment (Paper 1) :Component	Completed	Verified by SDO/GCR
Describe and evaluate research into care-giver infant interactions		
Describe and evaluate Schaffer's' stages of attachment.		
Describe and evaluate animal studies of attachment.		
Describe and evaluate learning theory as an explanation of attachment.		
Describe and evaluate Bowlby's monotropic theory of attachment.		
Describe and evaluate the strange situation		
Describe and evaluate research into cultural variations in attachment.		
Describe and evaluate Bowlby's theory of maternal deprivation		
Describe and evaluate research into Romanian Orphans.		
Describe and Evaluate research into the influence of attachment on childhood and adult relationships, refer to evidence in your answer.		

Memory (Paper 1) :Component	Completed	Verified by SDO/GCR
Outline and evaluate research related to the features of short term memory (coding capacity and duration)		
Discuss the multi store model of memory		
Describe and evaluate the different types of long term memory		
Describe and evaluate the Working memory model.		
Describe and evaluate interference as an explanation for forgetting.		
Describe and evaluate retrieval failure as an explanation for forgetting.		
Describe and evaluate research into the influence of misleading information on the accuracy of eyewitness testimony.		
Describe and evaluate research that has investigated the influence of anxiety on the accuracy of eyewitness testimony.		
Describe and evaluate the cognitive interview as a way of improving the accuracy of EWT.		
Social Influence (Paper 1) :Component	Completed	Verified by SDO/GCR
Describe and Evaluate informational social influence AND normative social influence as explanations for conformity refer to evidence in your answer.		
Describe and evaluate Asch's research into conformity.		
Discuss research into conformity into social roles (Zimbardo)		
Describe and evaluate Milgram's research into obedience.		
Milgram provided situations explanations for obedience. Describe and evaluate two situational variables that have been shown by Milgram to affect obedience to authority.		
Outline and evaluate one or more explanations of obedience		
Discuss the authoritarian personality as an explanation for obedience.		
Describe and evaluate two explanations of resistance to social influence. Refer to evidence in your answer.		
Describe and Evaluate research into minority influence.		
Discuss the role of social influence processes in social change.		

Psychopathology (Paper 1) :Component	Completed	Verified by SDO/GCR
Describe and evaluate two ways of defining abnormality.		
Describe and evaluate the behavioural approach to explaining phobias.		
Describe and evaluate the use of the behavioural approach to treat phobias.		
Describe and evaluate the cognitive approach to explaining depression		
Describe and evaluate the cognitive behavioural therapy for depression		
Describe and evaluate the biological approach to OCD		
Describe and evaluate the biological approach to treating of OCD		

Task 2: File Check: All sections are complete, work is well organised and clearly labelled.	Completed	Verified by SDO/GCR
